

Former Naval Air Station Moffett Field Site 25

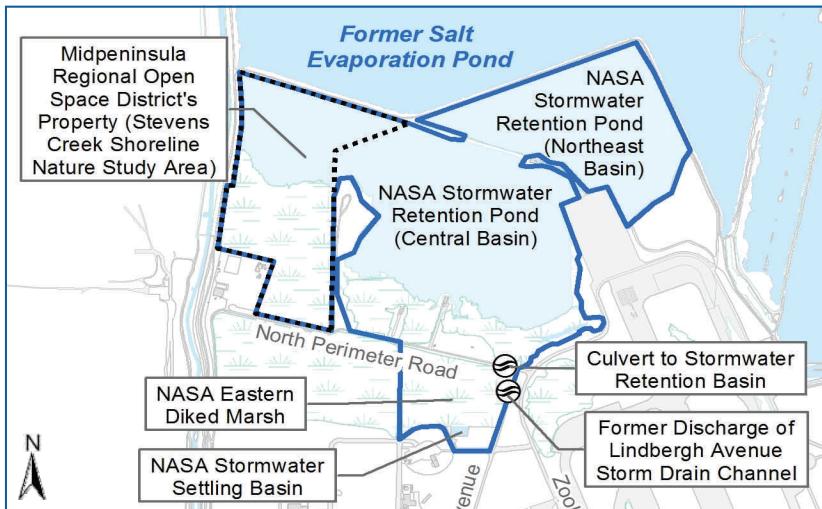

**Moffett Field, California
Fact Sheet**

January 2009

NAVY INVITES PUBLIC COMMENT ON PROPOSED PLAN

The Department of the Navy (Navy), the U.S. Environmental Protection Agency, the National Aeronautics and Space Administration (NASA), and the San Francisco Bay Regional Water Quality Control Board encourage the public to comment on the attached Proposed Plan to address contamination at Site 25 at former Naval Air Station (NAS) Moffett Field. Former NAS Moffett Field is located 35 miles south of San Francisco and 10 miles north of San Jose (shown on figure at right). NAS Moffett Field was an active military base until it was closed in 1994.

Site 25 (shown left) is located in the northeastern corner of former NAS Moffett Field and includes the Eastern Diked Marsh and the stormwater retention pond. Stormwater from Moffett Field flows into Site 25. Contaminants have deposited in sediment at Site 25 and pose a risk to plants and animals at the site. This Proposed Plan will address contamination in sediment at Site 25 through treatment, excavation and off-site disposal, restoration, and monitoring.

A public comment period will be held from January 9 to February 9, 2009. Public comments can be submitted by mail, fax, or email throughout the comment period. Contact information for submitting comments can be found on page 9 of the attached Proposed Plan. A public meeting will be held on January 22, 2009 in the World Room at the NASA Public Affairs Building (Building 943) from 7:00 to 9:00 pm. Members of the public may submit written and oral comments at the public meeting.

The Navy may modify the proposed plan or select another remedy based on feedback from the community or on new information. For this reason, the public is strongly encouraged to review and comment. A final decision on the remedy to be implemented at Site 25 will not be made until all comments are considered.

Please see the attached Proposed Plan for more details.

**— Notice —
Public Comment Period
January 9 to
February 9, 2009**

**Public Meeting
January 22, 2009**
