Re: Approval of Interim Remedial Action Report  
For Sites 1 and 2, Moffett Federal Airfield

Dear Mr. Lansdale:

The U.S. Environmental Protection Agency (EPA) has reviewed the draft Final Interim Remedial Action Report (IRAR) for Sites 1 and 2 (OU1), Moffett Federal Airfield, dated September 25, 2001. The IRAR provides a comprehensive summary of the remedy selection and response actions taken for these two landfills. The remedial action consisted of excavation of the landfill material at Site 2, consolidation of this material into the Site 1 landfill, capping Site 1 and associated construction activities, including groundwater collection and gas venting trenches. Postclosure activities include groundwater and landfill gas monitoring, and maintenance of institutional controls. The IRAR shows that the remedial action activities specified in the decision documents have been implemented.

This letter confirms the EPA project manager concurrence of Operable Unit 1 dated October 12, 2001.

Sincerely,

A handwritten signature in cursive script that reads "Michelle Schutz".

Michelle Schutz, Acting Chief  
Federal Facilities Cleanup Branch  
Superfund Division
