**Subject: Concurrence with Final Remedial Action Completion Report, Installation Restoration Program Site 25, Former Naval Air Station Moffett Field, Mountain View, Santa Clara County**

Dear Mr. Anderson:

Regional Water Board staff reviewed the July 30, 2013, *Final Remedial Action Completion Report* (Final Report). The Final Report describes the remedial action and restoration activities performed at Installation Restoration (IR) Site 25. In accordance with the IR Site 25 Record of Decision, the Navy completed excavation and off-site disposal of contaminated sediment to reduce exposure of ecological receptors to contaminants of concern. Regional Water Board staff concur with the Final Report and that the Navy has satisfactorily implemented the remedy outlined in the IR Site 25 Record of Decision.

The Navy will monitor and document habitat restoration until Fall 2014. If the habitat restoration does not meet the success criteria outlined in the Salt Marsh Habitat Restoration Plan<sup>1</sup>, the Navy will be required to perform additional restoration activities.

If you have any questions, you can contact me via phone at (510) 622-2440 or via email at [ewells@waterboards.ca.gov](mailto:ewells@waterboards.ca.gov).

Sincerely,

Elizabeth K. Wells, P.E.  
Water Resource Control Engineer
